CUT FLOWERS
BULBS

GLAD GARDENS

**1107 4th Street N.E. Phone 2083-J
AUBURN, WASHINGTON**

SEPTEMBER 15, 1953

These prices are for large size cut flower bulbs. Over 1½ inches in diameter. Order now and advise us of desired shipping date. We will hold the bulbs until planting time for you. Most varieties ready to ship about December 1.

ORDER DIRECT FROM GROWER

Simple Rules of GLADIOLUS CULTURE

1. Glads do best in full sun and must have at least a half-day when the sun can reach them.
2. Any good garden soil will grow glads. Rotted manure is desirable. Use a side dressing of commercial fertilizer (5-10-10) when the bulbs are up.
3. Plant six inches deep. Space the bulbs so the crowns are four inches apart in the row.
4. After the plants have the fourth leaf they need to be kept wet till the florets are open.
5. Hoe, weed and cultivate, the more the better.
6. Use a water soluble DDT 5% spray or 5% dust once every two or three weeks from the time the glads start to grow to control thrips.
7. It is best to dip bulbs before planting. Dip 10 minutes in mixture of 2 oz. of Tersan 75 to one gallon of water. Keep the mixture well mixed while the bulbs are being dipped. Or 1 tblospn. Lysol in 1 gal. water for 4 hrs.

When shipped by us these bulbs are true to name, sound, healthy, and well packaged. As we have no control over the bulbs after they leave our hands, we are not responsible for the crop. We will be liable only for the purchase price of the bulbs, at the time that you receive the package.

PRICE SCALE

Add 3% sales tax on Washington orders. Due to continued increases in Parcel Post rates all orders to be shipped will add 25c for shipping on orders of \$5.00 or less and 50c on orders over \$5.00.
